

Military Connectors & Cable Assemblies

**Wherever, Whenever, Whatever You
Imagine, We Can Be Part Of The Solution**

MIL-CON Inc, a Phoenix of Chicago Company

Mil-Con was founded in 1983 to manufacture 5 and 6 pin audio connectors for ground based military communication programs. A full product line of cable mount and board level connectors was developed to satisfy standard as well as unique requirements. Mil-Con complies with MIL-C-55116 requirements and meets the specifications of the National Security Agency's listing of "ON" drawings for secure programs.

Mil-Con's expertise also includes the manufacturing of military cable assemblies and harnesses. Assembly types include flexible multi-conductor, flex circuit assemblies, as well as flexible RF and semi-rigid RF cable types. Assemblies and harnesses can be designed to withstand severe vibration, thermal shock and extreme environmental conditions without affecting performance.

MIL-C-5116 Compatible and US Defence "ON" Programme.

**Standard & Custom termination styles.
